

# Robot Building With Child Creativity Lab

## **Build and design your own upcycled robot!**

In this challenge with Child Creativity Lab, girls will create an upcycled robot using STEM concepts like biomimicry, testing, and designing prototypes. They will design a robot that serves a function or a purpose – stretching their imaginations and practicing their creativity. Girls will learn about upcycling, STEM, and design while creating a robot of their very own! Girls will complete the steps for the Design A Robot badge.

### **For Girl Scout**

### **Daisies & Brownies**

**\$25 per GSOC Girl Scout**

**Monday, September 8<sup>th</sup>**

**4:00 PM – 5:00 PM**
